Welcome

Welcome to the new edition of our Samuel Heath Architectural Hardware catalogue.

You will discover within these pages a complete representation of Samuel Heath’s range of luxury Architectural Hardware.

Our new catalogue has been colour coded for your ease of use and all products shown with full dimensions together with key features and technical information.

Contemporary concealed fixing options for door knobs and levers are offered in addition to the original visible fix within the Profile and Contour suites. These two suites are available from stock in our 6 core finishes - in most cases delivered next day. Profile and Contour are backed by immediate availability of ancillary products such as front door furniture, sash window fittings, flush bolts and rings and CNC machined letter plates, also available from stock in our 6 core finishes.

Our new range of weatherseal casement fasteners and an extended offer of locking window fittings make life easier for the Architectural Hardware specifier offering a wide range of options.

Many of our products are hot forged or finely honed on our multi station CNC machines. Each product is hand finished by long serving British craftsmen to give an immaculate finish. You can even specify our architectural hardware to co-ordinate with our range of bathroom fittings.

We have been honoured to welcome hundreds of visitors to our factory from around the world to witness the whole manufacturing process under one roof reflecting the attention to detail and stringent quality procedures that are inherent in our manufacturing process.

At Samuel Heath we don’t take shortcuts, the best method is always employed whether this be with the latest aerospace standard CNC machining or hand crafted skills honed over decades.

We hope you enjoy our new Architectural Hardware catalogue.
CONTENTS

Suites
- Profile 10 - 18
- Contour 20 - 26
- Cobden 28 - 35
- Jupiter 36 - 41

Entrance Door Fittings
- Letter plates 43 - 45
- Latch pulls 45
- Door knockers 46
- Bell pushes 47
- Centre door knobs 48
- Security 49

Internal Door Fittings
- Door knobs 50
- Latch sets 51
- Escutcheons 51
- Pull handles 52
- Bolts 53 - 54
- Flush fittings 55 - 56
- Door holders & stops 57

Window Fittings
- Casement stays 58 - 59
- Casement fasteners 60 - 61
- Sash fasteners & fittings 62 - 66
- Additional fittings 67 - 68
Further Fittings
- Cupboard fittings 69 - 70
- Flush fittings 71
- Cabin hooks 72
- Ventilators 72 - 73
- Hat & coat hooks 74
- Miscellaneous fittings 75 - 76

Door Closers
- Perko Powermatic 77 - 79
- Perkomatic 80
- Perko 81
- Trip catch 76

Intro Bathroom Accessories 82 - 83

Finishes 6 - 7

Alphabetical Index 84

Product Code Index 85
Finishes

Core finishes

Profile and Contour suites are available from stock in all of these 6 finishes vis:

NL  Non lacquered brass is hand polished and if cleaned regularly will maintain a pure brass finish. If left to weather of its own accord the brass will form a patina which gives a natural tone to the metal.

PB  Our polished brass is provided with an electrophoretic ultra lacquer which provides 6 times more wear resistance than traditional wet spray lacquer.

CP  Hand polished brass is given a primer coating of copper, followed by an undercoat of nickel and finished with a protective hard gloss coating of chromium.

SCP  Similar to CP but instead utilises an undercoat of satin nickel. A highly desired finish for a contemporary style.

SN  This finish offers a warmer look for specifications where satin chrome plate can be too uncompromising.

PN  The ultimate ‘warm’ finish providing a deep lustre used primarily in classic settings but increasingly used in contemporary designs when chrome plate can be too stark. We do not lacquer our polished nickel as we prefer it to form a natural patina over time.

<th>BMA</th>
<th>BB</th>
<th>SD</th>
</tr>
</thead>
</table>

**BRZ**  
A bronze finish applied on polished brass. It is designed to wear in time to reveal a ‘rustic’ look for period specifications.

**PVD**  
The most durable brass finish available on the market. Our 25 year guarantee reflects our confidence in this hard-wearing finish which is mainly specified on external applications.

**BMA**  
Bronze metal antique is a plated finish on brass which is lacquered to maintain its consistency.

**BB**  
Barrel burnishing produces a smooth appearance and is used as an alternative form of finishing for certain products where a highly polished surface is not required. The majority of these products are protected with a lacquer which is electrophoretically plated.

**SD**  
Sanded brass is achieved by hand finishing the surface and in most cases is lacquered.
